SKILLS

- **Test Automation Frameworks:** Selenium/WebDriver, TestNG, Junit.
- **Tools/IDE:** Visual Studio, Visual Studio Code, PyCharm, TortoiseHg, SourceTree, Postman, JIRA, Jenkins, Bugzilla, JMeter
- **Version Control:** GIT, Mercurial, GitHub, Bitbucket
- **Languages:** Java, JavaScript, HTML, CSS, SQL
- **Methodologies:** Agile, Scrum, Kanban
- **Database Management System:** MySQL
- **Database Tools:** MySQL Workbench

EXPERIENCE

- Performed manual testing on e-commerce websites using black box testing techniques.

- Automated functional testing using Selenium/WebDriver, performed regression and exploratory testing and executed builds with Jenkins.

- Constructed test cases using Data Driven and Behavior Driven Development.

- Captured web elements and recorded web automation with Katalon Studio.

- Tested Rest APIs manually using Postman.

- Developed SQL queries to extract data from the source tables.

- Performed load and performance testing using JMeter.

- Composed work stories, bugs and accomplished task management with Jira while implementing Agile/Scrum practices and prepared test reports and submitted the bug findings to the Bugzilla defect tracking system.

- Generated advanced reports using extentsreport, cucumber-extentsreport dependencies.

- Developed COVID-19 tracker, Netflix clone with HTML5/ CSS3/ JavaScript/ React and deployed, hosted, and authenticated apps on firebase.

- Certified Tester - Foundation level, familiar with test design principles, test techniques and responsibilities of a software tester.

- Presented course projects to professors at Concordia University, deliberately chosen by team members to deliver presentations during course projects.

CERTIFICATIONS

1. *Certified Tester, Foundation Level*

EDUCATION

CONCORDIA UNIVERSITY   **Montreal, QC, CA**

MENG Quality Systems Engineering, Jan 2019 - Dec 2020

- (GPA: 3.65/4.3)

GURU NANAK DEV ENGINEERING COLLEGE   **Ludhiana, PB, IN**

BTech Mechanical Engineering, Aug 2014 - Jun 2018

ONLINE COURSE CERTIFICATIONS

1. *Selenium WebDriver Automation Testing, BDD/ Cucumber Framework, Jenkins, Katalon Studio*
2. *Master Software Testing with Jira and Agile practices*
